

## Our organisation

As an independent knowledge institute in the field of water and subsurface, Deltares works on our Enabling Delta Life mission

### Research and Impact

[Henriëtte Otter](#) | Core MT-member

#### Ecosystems and Sediment Dynamics

Laura Vonhögen - Peeters

#### Applied Morphodynamics

Bart Grasmeijer

#### Resilience and Planning

Edwin Snippen

#### Hydrodynamics and Forecasting

Sandra Gaytan Aguilar

#### Data Science and Water Quality

Joost Icke

### Strategic Partners and client relationships

[Bianca Peters](#) | Core MT-member

#### Flood Defence Technology

Harm Aantjes

#### Safe and Resilient Infrastructure

Remon Pot

#### Soil Water and Structures

Aukje Baaijens

#### Energy and Underground Infrastructure

Roderik Hoekstra

### Expertise and Formation

[Goaitske de Vries](#) | Core MT-member

#### Freshwater Ecology and Water Quality

Reinaldo Penailillo Burgos

#### Rivers

Johan Boon

#### Catchment and Urban Hydrology

Tjitske Geertsema

#### Flood Risk Management

William Oliemans

#### Operational Water Management and Early Warning

Ben van Kester

#### Water Resource Management

Judith Blaauw

#### Climate Adaptation & Disaster Risk Management

Judith Kaspersma

### Experimental Facilities

[Ahmed Elkadi](#) | Core MT-member

#### Hydrodynamics and Offshore Technologies

Remon Pot

#### Coastal Structures and Waves

Paul van Steeg

#### Hydraulics for Infrastructure and Industry

Julie Zonneveld

#### Experimental Facility Services

Wim Taal

#### Resilient ports and coasts

Helena van der Vegt

#### Groundwater and Water Security

Otto de Keizer

#### Subsurface and Water Quality

Sophie Moinier

#### Subsurface Systems and Technologies

Ane Wiersma

#### Urban Resilience and Spatial Transformation

Nishchal Sardjoe

### Digital Facilities

[Hans van Putten](#) | Core MT-member

#### Operations and Planning Software

Gerben Boot

#### Software Services Team

Edward Melger

#### Hydrodynamics and Morphology Software

Maurits de Boer

#### Geotechnical and Flood defences Software

Joël van den Berg

#### Hydrology Software

Nadine Sloopjes

#### Water quality and Ecology Software

Gerben Boot

### Support Departments

#### ICT

[Han van Veldhuizen](#)

#### Finance and Control

[Klaas Vlaar](#) | Core MT-member

#### Human Resources

[Karin Hijma](#)

#### Corporate Communication

[Jacqueline Vink](#)

#### Facility Department

[Wouter de Haan](#)

#### Scientific Council

[Bart van den Hurk](#)

[Bregje van Wesenbeeck](#)

Chairs

#### Young Science Council

[Margreet van Marle](#)

Chair

[Robert McCall](#)

Vice-Chair

### Board of Directors

[Annemieke Nijhof](#)

[Dirk-Jan Walstra](#)

We have made our ambitions - challenging goals with huge societal importance - more concrete in moonshots. These can only be achieved by working together with others

Liveable deltas

Safer from flooding

Healthy water and subsurface systems

Energy transition and climate neutrality

Resilient infrastructure

### Departments
