

## Our organisation

As an independent knowledge institute in the field of water and subsurface, Deltares works on our Enabling Delta Life mission

### Subsurface and Groundwater Systems

**Gerard Blom**

#### Groundwater Management

Otto de Keizer

#### Subsurface and Groundwater Quality

Sophie Moinier

#### Applied Geology and Geophysics

Ane Wiersma

#### Urban Water and Subsurface

Henriëtte Otter

### Geo-engineering

**Jan Aart van Twillert**

#### Flood Defences Technology

Harm Aantjes

#### Safe and Resilient Infrastructure

Remon Pot

#### Soil Water and Structures

Aukje Baaijens

#### Energy and Underground Infrastructure

Ahmed Elkadi

### Hydraulic Engineering

**Goaitske de Vries**

#### Hydrodynamics and Offshore Technologies

Jan-Joost Schouten

#### Coastal Structures and Waves

Paul van Steeg

#### Hydraulics for Infrastructure and Industry

Julie Zonneveld

#### Experimental Facility Services

Wim Taal

#### Resilient ports and coasts

Helena van der Vegt

### Marine and Coastal Systems

**Toon Segeren**

#### Ecosystems and Sediment Dynamics

Laura Vonhögen - Peeters

#### Applied Morphodynamics

Bart Grasmeijer

#### Resilience and Planning

Myra van der Meulen

#### Hydrodynamics and Forecasting

Sandra Gaytan Aguilar

#### Data Science and Water Quality

Paul Saager

### Inland Water Systems

**Bianca Peters**

#### Freshwater Ecology and Water Quality

Reinaldo Penailillo Burgos

#### Rivers

Johan Boon

#### Catchment and Urban Hydrology

Hans van Putten

#### Flood Risk Management

William Oliemans

#### Operational Water Management and Early Warning

Ben van Kester

#### Water Resources and Delta Management

Judith Blaauw

#### Climate Adaptation & Disaster Risk Management

Judith Kaspersma

### Deltares Software Centre

**Marijn Kuijper**

#### Operations and Planning Software

Gerben Boot

#### Software Services Team

Edward Melger

#### Hydrodynamics and Morphology Software

Maurits de Boer

#### Geotechnical and Flood defences Software

Arthur Baart

#### Hydrology Software

Nadine Slootjes

#### Water quality and Ecology Software

Joost Icke

### Support Departments

#### ICT

**Han van Veldhuizen**

#### Finance and Control

**Klaas Vlaar**

#### Human Resources

**Mirjam Buurmeijer**

#### Corporate Communication

**Jacqueline Vink**

#### Facility Department

**Wouter de Haan**

#### Scientific Council

**Bart van den Hurk**

**Bregje van Wesenbeeck**

Chairs

#### Young Science Council

**Margreet van Marle**

Chair

**Robert McCall**

Vice-Chair

#### Knowledge Strategy

**Peter van den Berg**

**Ankie Bruens**

#### Digital Transformation

**Hanneke van der Klis**

### Board of Directors

**Annemieke Nijhof**

**Dirk-Jan Walstra**

We have made our ambitions - challenging goals with huge societal importance - more concrete in moonshots. These can only be achieved by working together with others

Delta's remain habitable

Safer from flooding

Resilient and healthy water systems

CO<sub>2</sub> reduction and sustainable energy

Resilient infrastructure

### Units and Departments
